# Cleanup Inactive Model Parts

## What it does

Removes all states in an entity, that have no records and are marked as inaktive.

## How to invoke

Call the codeunit, with the SagID to clean.

```
main?command=com.tsnocode.codeunit.backend.CleanupInactiveModelParts&SagID=[SagID]
```

## Developer info

- Type: CodeunitPagecontent
- Security: administrator
- Classpath: com.tsnocode.codeunit.backend.CleanupInactiveModelParts
