

# Status action

Status actions are addon functionality bound to a certain status.

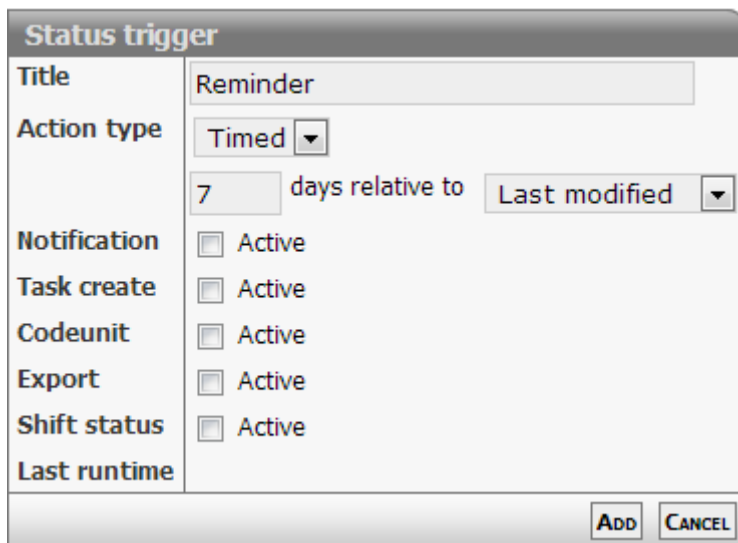

When an item fulfills certain criterions, the action is fired resulting in

- Sending of an email ([Notification](#))
- Export and routing of documents ([Export](#))
- Creation of tasks ([Task create](#))

Conditions for triggers can be:

- When entered
- When leaving
- Set amount of time

Read more about it here: [Status actions](#)

The screenshot shows a dialog box titled "Status trigger". It contains the following fields and options:

- Title:** A text input field containing "Reminder".
- Action type:** A dropdown menu set to "Timed".
- Days:** A text input field containing "7", followed by the text "days relative to".
- Relative to:** A dropdown menu set to "Last modified".
- Notification:**  Active
- Task create:**  Active
- Codeunit:**  Active
- Export:**  Active
- Shift status:**  Active
- Last runtime:**  Active

At the bottom right of the dialog are two buttons: "ADD" and "CANCEL".
