Hosting Setup

The LES Whistleblower Portal is hosted at Amazon Webservices EC2 in the data center in Stockholm, which complies with the following standards PCI DSS 3.2 Level 1 Service Provider, FIPS 140-2, ISO 27001. The server is protected by 2 layers of firewalls and utilizes the following supported services:

- SSL certificates are automatically updated monthly from LetsEncrypt
- UptimeRobot polls the server each minute checking: Access to database, Storate- and RAM-sufficiency
- Database is dumped nightly, replicated to encrypted storage in EU
- Office365 SMTP service for sending emails
